

OPTIMA

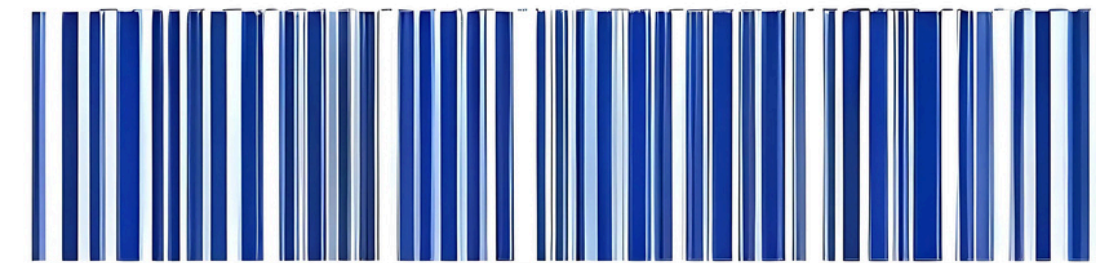

TEEPOS

Optima GO POS is a global manufacturer and supplier of quality, cost-effective point-of-sale (POS) solutions. They offer a range of all-in-one POS terminals, designed to meet the needs of small to medium-sized businesses, including commercial applications such as supermarkets, larger restaurants and retailers.

OPTIMA

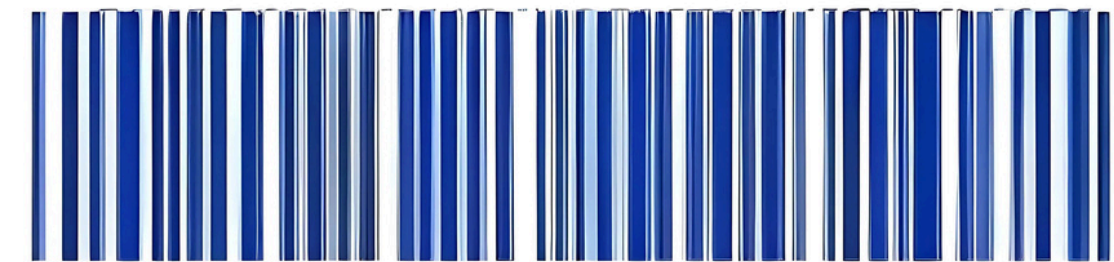

TEEPOS

1. **All-in-One Solutions:** Optima GO POS provides all-inclusive POS terminals, meaning they come with all the hardware and software needed to get up and running right away.
2. **Modular Design:** The systems are designed to be easy to maintain, with a modular design that facilitates quick replacement of components and paper rolls.
3. **Powerful Performance:** Equipped with quad-core Rockchip processors, the terminals deliver energy-efficient performance and low power consumption, ensuring stable, efficient, and secure system operation.
4. **Proprietary Software:** The Optima APOS series is integrated with Optima GoPOS® software, offering smoother functionality to meet the needs of various business applications.
5. **No Monthly Fees:** Optima GO POS stands out by offering POS software with no monthly fees, meaning you buy the system once and own it forever, with lifetime upgrades included.
6. **Accessory Support:** All Optima APOS Series systems are also equipped with Ethernet, USB, R232 and cash drawer ports to support all of your POS accessories.
