

PECAN POS

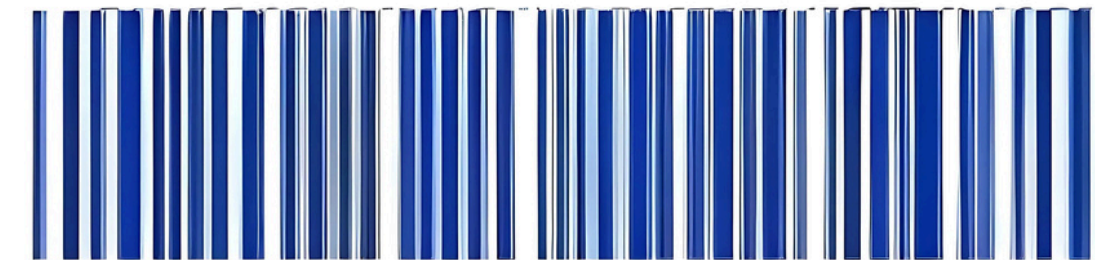

TEEPOS

Pecan POS is specifically designed to meet the distinctive needs of fine dining and foodservice establishments, offering a reliable, feature-rich system that enhances daily operations.

PECAN POS

TEEPOS

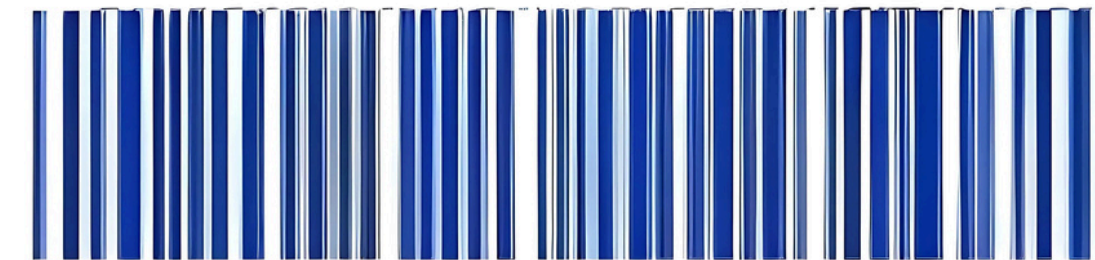

We know that seamless management goes beyond basic functionality, which is why Pecan POS is customizable to meet your specific needs. As an out-of-the-box solution, it supports every aspect of your business, from check-in to cash management, closing and reporting.

Below, you can take a look at our top features, as they will appear on your POS terminal.

PECAN POS

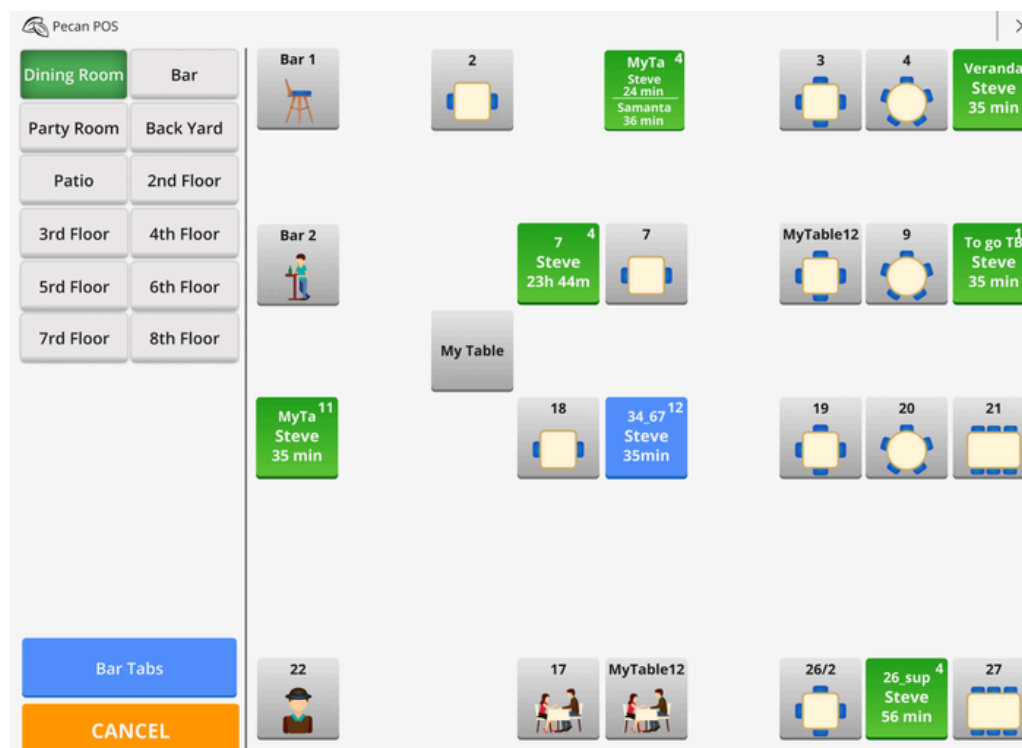

TEEPOS

Service Management

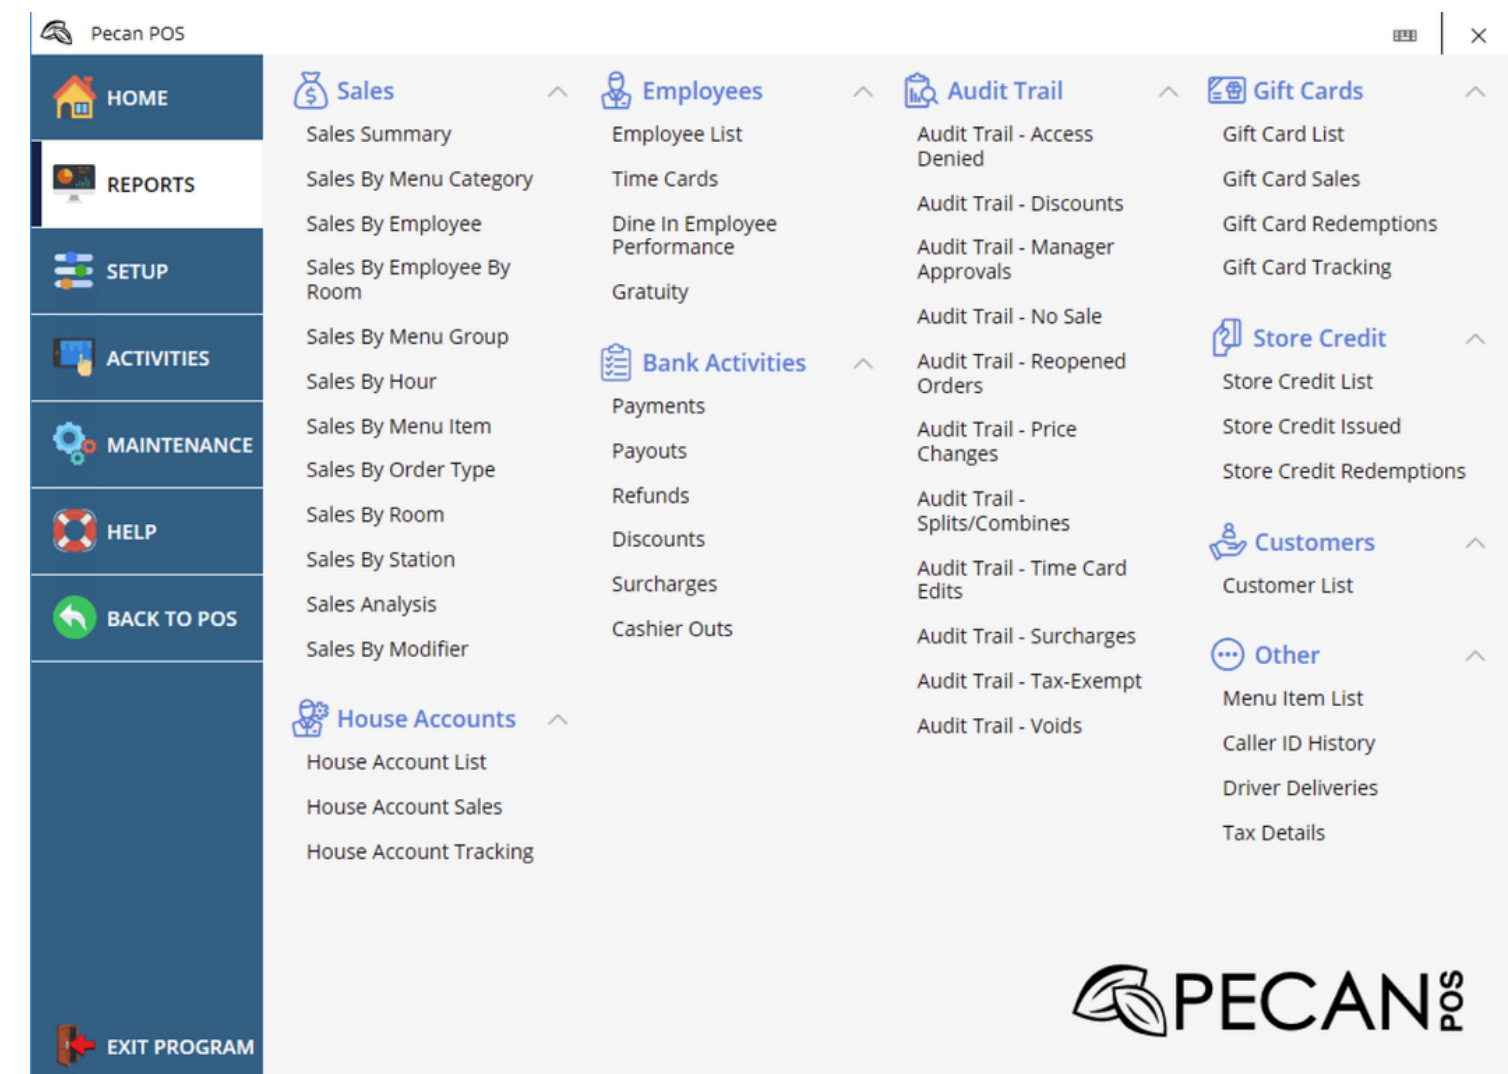

Easily switch between Lounge and Bar environments, giving your staff easy access to every open check. Bar checks can even be moved to tables and vice versa.

Customize your order types to match your workflow.

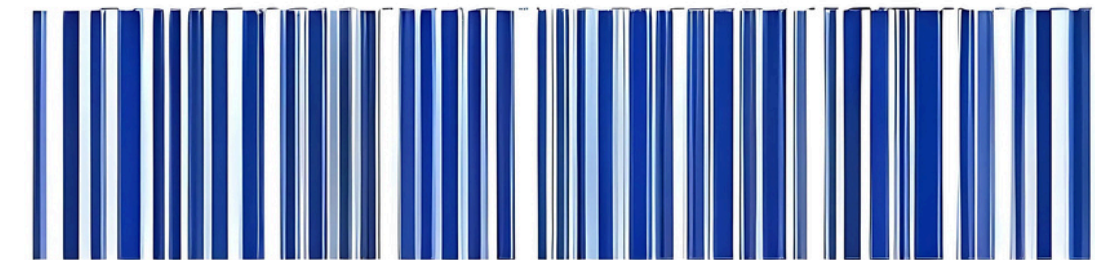

Reporting

Comprehensive reporting designed to simplify your accounting and provide valuable analytical insights into your business performance

TEEPOS

Pecan MOBILE

Revolutionize your table service with the innovative Pecan Mobile, especially when paired with the Sunmi P2 Pro, one of the thinnest and lightest devices in the industry. Pecan Mobile, combined with the Sunmi P2 Pro, gives your staff the flexibility to take orders and process payments directly at the table, ensuring streamlined operations and top-notch service, even during the busiest hours.

PECAN POS

TEEPOS

REAR DISPLAY

Our optional rear display presents your customers with a convenient tip menu, significantly increasing your potential revenue.

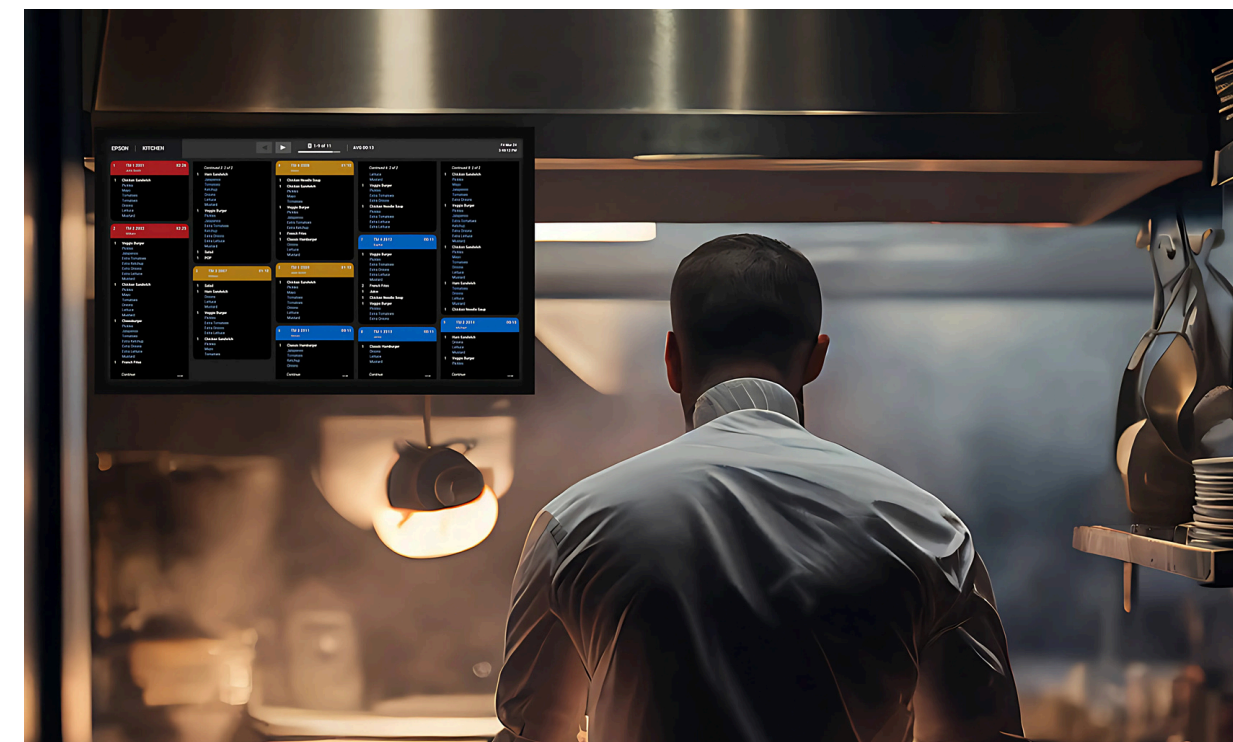

We call this innovative dual-screen setup a win-win situation for you and your customers!

Kitchen Display System

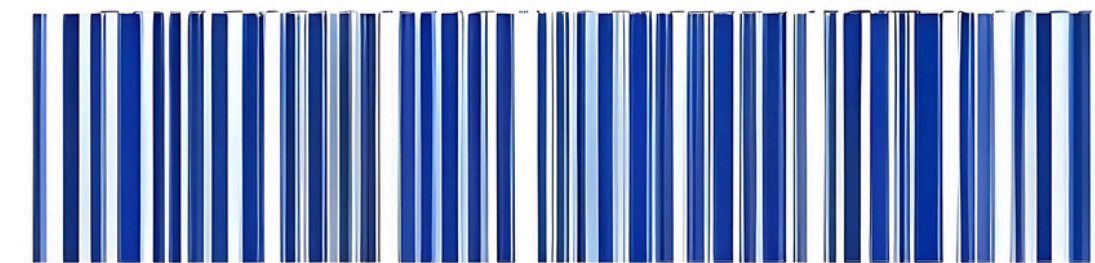

With KDS, orders are boldly displayed on a large touchscreen, replacing the outdated paper method. This upgrade not only keeps your kitchen organized, but also ensures a smooth flow during peak periods.

KDS is a feature that sells itself.
